

GentooPlayer

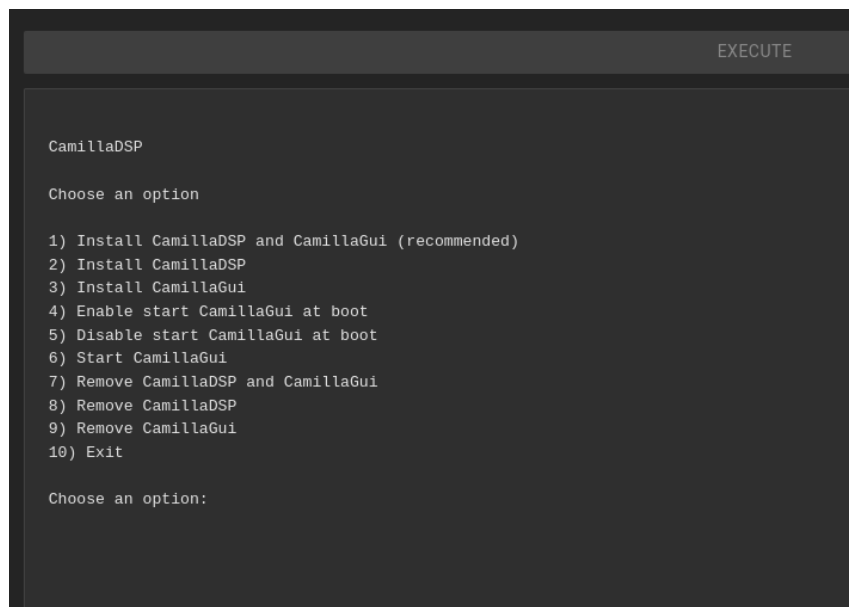

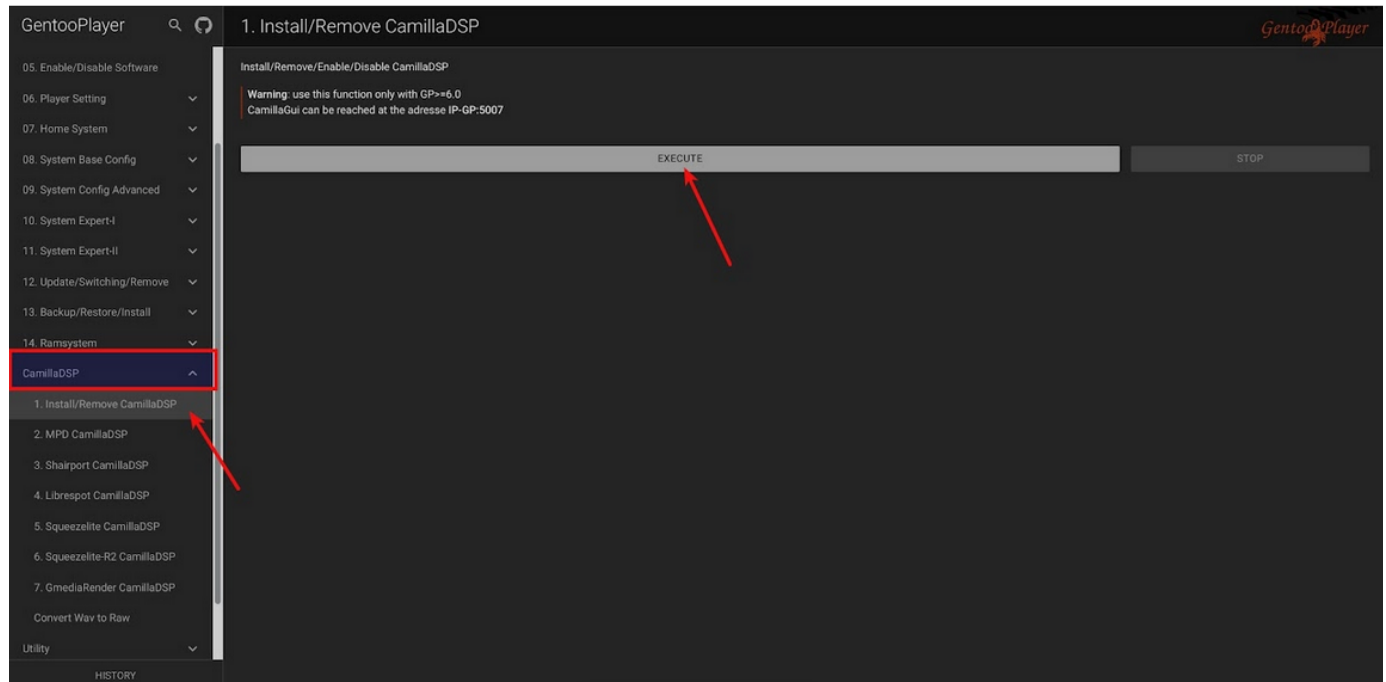

Install/Remove CamillaDSP

Home CamillaDsp

Home CamillaGui

1) Install CamillaDsp and CamillaGui

note: installation takes time....

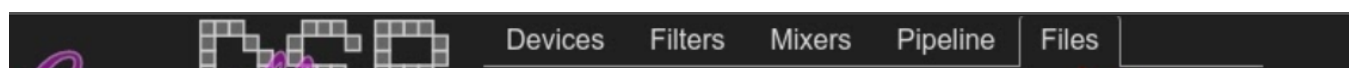

type **1** and enter to install

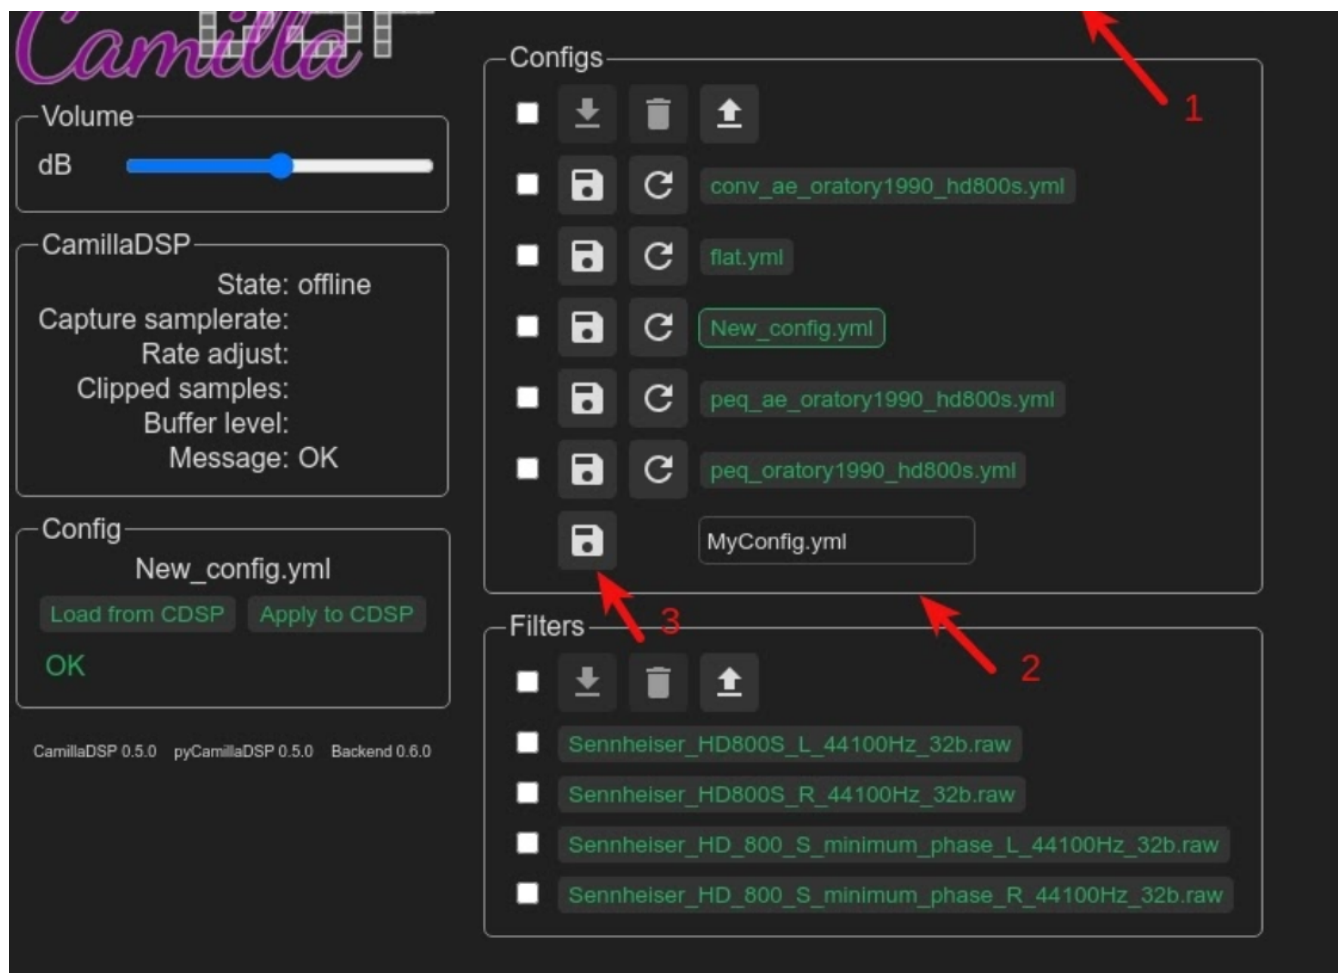

Repeat and type **4 or 6** and enter to enable

2) Configure CamillaDsp

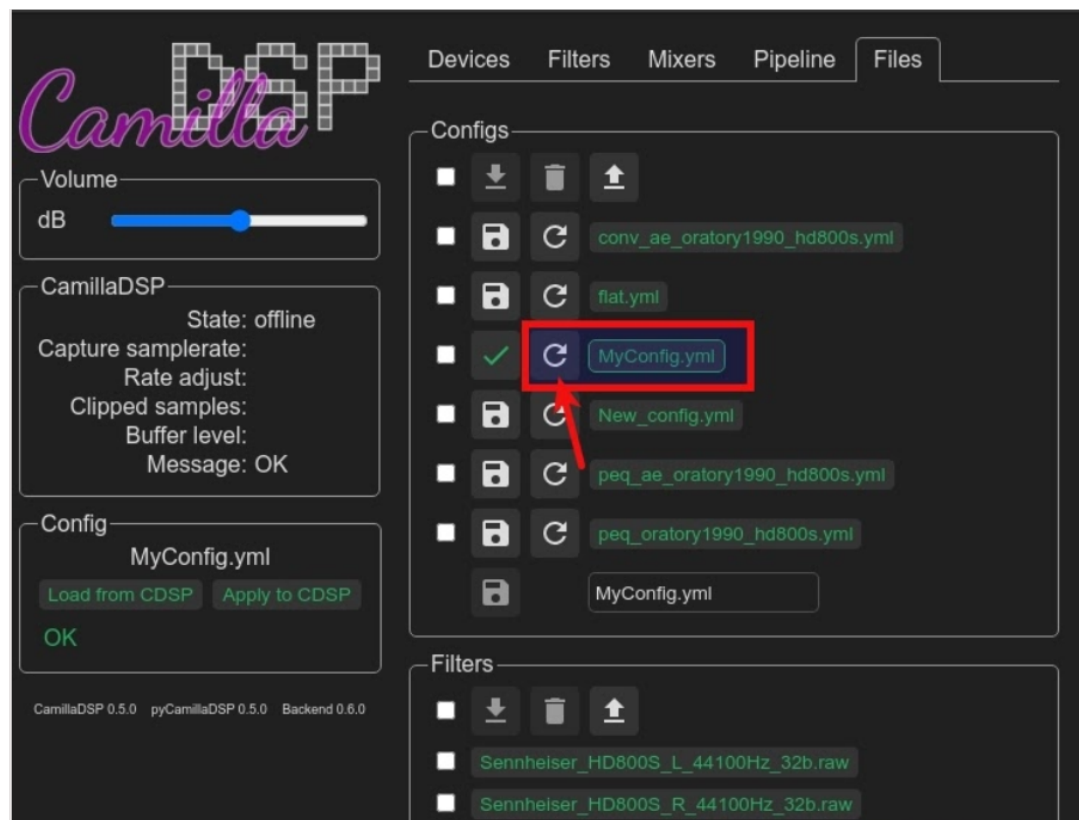

open CamillaGui (IP-GP:5007) or [click here](#)

Go to File and create a new configuration file

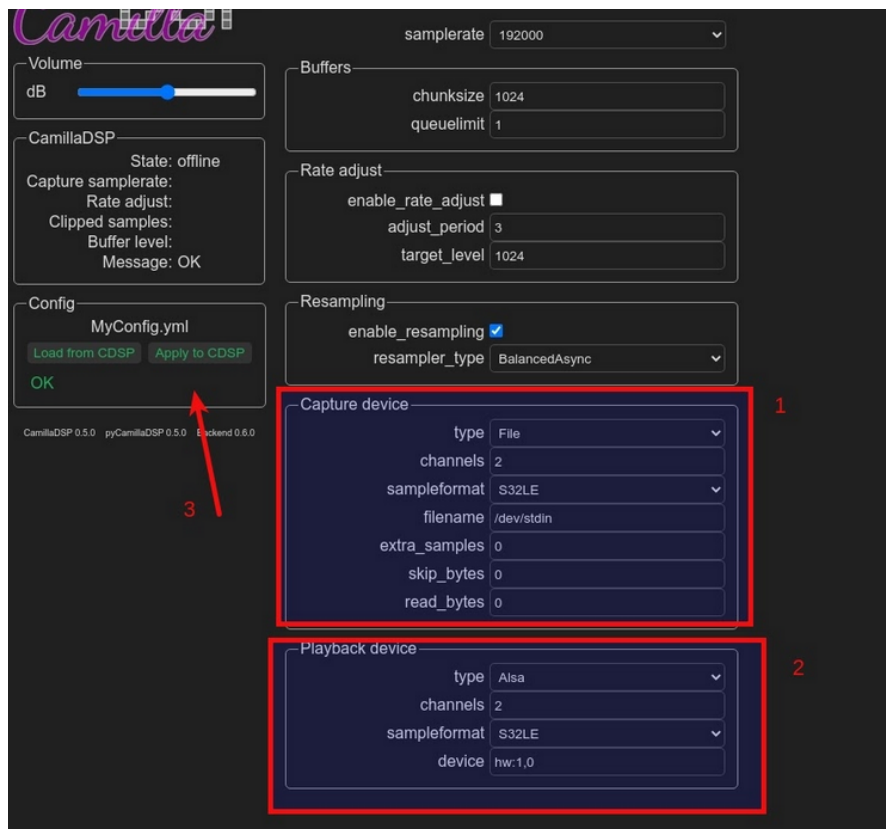

Load Config File

Go to Devices and configure

Capture device must be configured as shown in the image.

type: **files**

filename: **/dev/stdin**

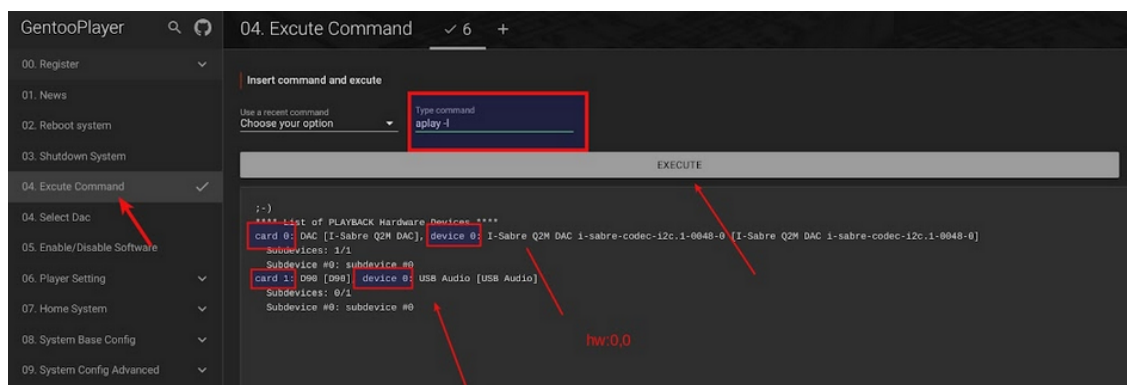

you should only change the sample format according to your sound card, check in systeminfo.

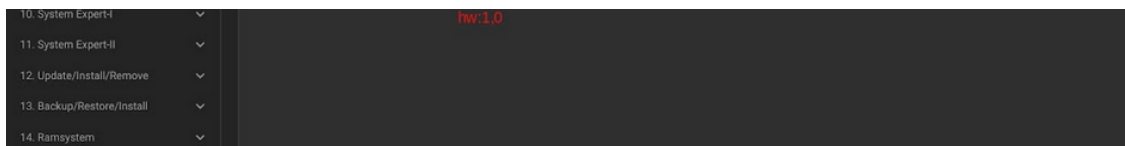

Playback device: set in right output device, you can see it with command **aplay -l**

ex:

```
GentooPlayerX86 ~ # aplay -l
**** List of PLAYBACK Hardware Devices ****
card 0: RAVENNA [Merging RAVENNA], device 0: Merging RAVENNA [Merging RAVENNA] hw:0,0
  Subdevices: 1/1
  Subdevice #0: subdevice #0
